The Look collection, inspired by **hand-glazed brick tiles**, has been expanded with **three new colors: Lino, Turchese and Verde**, plus the **3D Yubi structure**. The surfaces are covered with a thick glaze with drips, irregularities and color variations which enhance the handmade look.

The new **3D Yubi structure** visually divides the classic 6x24 size into three **rods with a soft ingot shape** with marks of fire and wear, further emphasising the handmade look.
